2024 – Present

- Built and own **4-tier POM Playwright suites** — 1,000+ test cases across 4 concurrent products. Zero raw selectors, synthetic JSON data, centralized Allure reporting.
- 200+ critical defects pre-UAT** — Rota Engine payroll bug (multi-tenant), offline-sync data-loss vector, Docker socket lifecycle edge case, FCA regulatory gaps.
- Apply **10-layer test design** (UI, positive/negative, edge, network, lifecycle, RBAC, input, push notifications, E2E) — catches defect classes happy-path suites miss.
- FCA/AML/KYC compliance** on UK-regulated remittance app — 7 regulatory requirements mapped, gated, and evidenced.
- AI-augmented QA: **Claude Code agents** for test generation, MCP automation, centralized Allure + TestRail across all 4 products.

// KEY PROJECTS

Workforce Management Platform

UAT COMPLETE

- 95 Playwright specs** — Agency Portal, Time-Presence, Rota Engine
- Rota Engine bug pre-UAT — would have broken multi-tenant payroll
- Python seed scripts · 4-tier POM · Allure hub

Premium Wellness Booking App (London)

PRE-LAUNCH

- 829 test cases** — Web Admin (~200) + Mobile (629)
- Maestro: push notifications, biometric auth, offline flows
- 4 Stripe/VAT interaction bugs found in first integration pass

AI Agent Provisioning Platform

ACTIVE

- 245 test cases** across 2 TestRail suites
- Docker lifecycle, SSE streaming, WebSocket terminal
- AES-256-GCM · 4 OAuth PKCE provider flows

FCA-Regulated Remittance App (UK)

ACTIVE UAT

- FCA Consumer Duty, EDD threshold, audit log compliance
- KYC / CDD / AML — MLRO-reviewed requirements
- Go-live: June 2026
